## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1-3 and 5-10 are allowed.
2. The following is an examiner's statement of reasons for allowance: It is agreed that the prior art of record fail to teach or suggest alone or in combination, the combination of the limitations: "a temperature sensor sensing a temperature and generating a first signal based on the sensed temperature; and a buffer generating a second signal based on the first signal from the temperature sensor and providing the second signal for the inverter controller, wherein the voltage applied to the light source is increased based on the control signal" as claimed in claim 1; and "generating a second signal on the basis of the first signal; generating a third signal having a frequency depending on a state of the second signal; and changing the voltage applied to the light source responsive to the frequency of the third signal" as claimed in claim 9. It is for this reason in combination with all the other limitations in the independent claims 1 and 9, that claims 1-3 and 5-10 are allowable over prior art of record.

### ***Conclusion***

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
